## Co-Creating Local Resilience Knowledge

30,000+ readers served across the Asia-Pacific by 3000 contributors.

11 Knowledge products co-created.

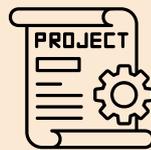

10 Southasiadisasters.net issues co-created.

10 Agenda-setting Blogs shared.

## Pilots Projects

- 1 Completed: climate change adaptation
- 7 Ongoing: heat, small towns, small farmers, small businesses
- 4 New: nature-based solutions.

## Impact

- 15,000 Families aware of cooling.
- 2000 Small businesses protected from extreme heat impacts.
- 10 Locations of anticipated heat response for CSOs and Governments.
- 500 Green Entities funding for affected people.

## Plans for 2026

- Scale anticipatory action for extreme heat to citizens in small towns.
- Expand nature-based cooling in Indian states.
- Strengthen community-based livelihood protection and *Afat Vimo* (micro-insurance) for small businesses and small farmers.

## Outcomes

- RHPW 2025: Heat anticipation advanced in UNOCHA, UN Women, and ADB on agenda.
- IHSA: Humanitarian justice and people-led action on the research agenda.
- IUCN: Nature-based solutions for cooling are amplified in all global conservation policies.
- Global Platforms: Cooling & loss and damage in 10 policy discussions, including EU and NYC Climate Week.
